RESIDENTIAL HVAC REBATES

| All Units - Minimum SEER 14.0 and Energy Efficiency Rating (EER) 12.0 | | |
|---|--------------|-----------------------------------|
| 12.0 - 12.5 EER | 12.6 + EER | Heat Pumps - Additional Incentive |
| \$600/unit | \$1,000/unit | Additional \$400/unit |

| Duct Repair/Replacement - 8% losses or less |
|---|
| 75% of project cost - maximum \$500 |

| Duct Pressure Testing | HVAC Tune up | Whole House / Attic Fans & Evaporative Coolers |
|-----------------------|------------------|--|
| \$100/unit | \$25/unit/yearly | \$150 per unit (building permit required) |

Income eligible customers (**80% of median income**) may qualify for higher rebates.
Contact REU at 339-7215 for details.

HVAC Rebate Criteria

1. Only air conditioners with Seasonal Energy Efficiency Ratings (SEER) of 14.0 or greater and Energy Efficiency Ratings (EER) of 12.0 or greater are eligible for a rebate.
2. **REU must pre-approve your rebate if more than one unit is installed in a new residence.**
3. **HVAC rebates** are available for both new construction and retrofit/replacements. All rebate applications require supporting documentation, including: unit specifications with ARI Reference number; building heating and cooling load calculations; and duct pressurization test results/printout.
4. ARI#'s must be verifiable on the current AHRI directory, numbers that have been removed do not qualify.
5. REU reserves the right to deny HVAC rebate if installed tonnage > 1 ton more than load calculation results
6. **Duct pressure test rebates** are not available when required as part of the final building inspection process.
7. **Duct repair/replacement rebates** only available on existing systems with "leaky ducts" (pressure test prior to repair with existing duct losses of 15% or higher) and post repair/replacement duct pressure test losses of 8% or less (actual rebate amount based on percentage of duct losses).
8. New construction **DOES NOT** Qualify for duct pressure test rebates.
9. Qualified annual HVAC **Tune-up servicing**, which includes changing filters, cleaning coils, and/or refrigerant charge testing is eligible for a rebate once per year.
10. **Whole House Fans, Attic Fans and Evaporative Coolers** must be permanently installed to your home and connected to your home's framing.
11. Commercial projects need to call for pre-approval at 339-7215.
12. **Rebate maximum's are for the life of the program.**

**NO INSTALLATION REBATES WILL BE AWARDED WITHOUT
A CITY OF REDDING BUILDING PERMIT AND SUCCESSFUL FINAL INSPECTION.**

HELPFUL FILING TIPS:

HVAC rebate documents should include signed and dated contract, documentation contract or invoice with all requested equipment information; make, model number, ARI #, EER, and SEER. Also include additional documentation for load calculations and duct pressure test results.

Duct repair or replacement rebate documents should include an invoice with an itemized duct repair/replacement cost and a printout of the pre- and post- duct pressure test results.

TERMS and CONDITIONS

Funds for these incentives are limited. REU reserves the right to change and/or terminate incentives at its own discretion based on availability of supporting funds. REU also reserves the right to inspect and verify installation of any energy-efficiency improvements. Customers who reject REU's verification process may be subject to rebate denial or reversal. REU does not guarantee any equipment or energy savings. Only current REU customers qualify for a rebate.

Submit your completed application and documentation to:
